

Monday February 3: **Global Hide and Seek, Seeds Sorting & HandPrint Art** 3:15 -5pm

Today's YourSpace after school program is a little potpourri of options. First, get started on a fun global game of hide and seek called Mystery Class! Follow photoperiod clues to search for ten secret sites around the world. Track sunlight to solve a mystery—and discover the reasons for seasons along the way. One clue is offered from the internet each week. Add them up to see if you can sleuth out the location of one or more groups of people at ten different sites around the world. We'll also be doing a service project: sorting seed packs for Seed Saver's Herman' Garden program and doing some 3-D hand art.

Monday February 10 **“Mood Food”** (Rescheduled from Jan. 27) 3:15-5pm

According to experts who study the process of digestion, food can definitely change the way you feel. You probably already found that out once upon a time when you did something like eat a whole pound of M & M's by yourself. But there are many more and subtler ways that food affects your mood, and it's likely that your trusty body has tried to point that out. Here's your chance to find out what this is all about, by visiting an interactive “Food Mood Exhibit.” You'll sample a variety of snacks and learn about how you can support your body's maximum happiness and productivity by choosing carefully what you eat. And just so you remember, you'll get to go home with a little reference guide with all the important points, plus some simple recipes you can make at home.

Wednesday, February 12 = Early Out activities:

Movies and crafts for youth age 9 and older, 1:15 pm- 5pm

Monday February 24 **“Mandala Pouch”** 3:15 to 5pm

Learn to crochet a small pouch that hangs around your neck, for carrying small change, special potions or magic dust.

Monday, February 24

“Thinking About Your Vegetable Garden” (with Seed Saver's Exchange) 6:30-8pm

Come network with other garden enthusiasts, swap seeds, learn about the Seed Lending Library, browse gardening books and get some guidance and answers to your gardening questions from a panel of local experts.
